Subject: Criminal Conspiracy: Mayor Profits From Flaw In Safety

Message:

THE MAYOR OF CHICAGO IS COMMITTING A CRIME (OF PURPOSELY PERPETUATING A DEADLY FLAW IN SAFETY FOR PROFIT) The traffic safety plan is flawed as follows: " Drivers are forced to guess at every yellow traffic light." 1) IS THE RED LIGHT CAMERA ARGUMENT REALLY ABOUT SAFETY? Then why are we being forced to guess at this life/vs/death decision to stop or go? (You don't guess at how wide your lane is do you?) 2) YELLOW LIGHTS DON'T GIVE DRIVERS ANY EMPIRICAL DATA: Drivers are required to solve an equation that contains only variables and zero constants. (This violates the first rule of Algebra.) 3) CIVIL RIGHTS: Government cannot force us to gamble with our lives and also penalize us for guessing wrong! (Guessing isn't a fair method to obey law.) 4) CRIMINAL CONSPIRACY: This flaw in safety is purposely being perpetuated for profit. Not one dime of camera money has ever been earmarked toward scientific study of objective aids to navigation that give drivers tools to make safer decisions (eliminate guessing). Traffic Studies to date have all wasted taxpayer money because they all ask the wrong questions (over and over again). DO YOU WITTINGLY SUPPORT PROFITING FROM THE DEATH AND DISMEMBERMENT OF AMERICAN CITIZENS OR DO YOU AGREE TO START FUNDING SCIENTIFIC RESEARCH WHICH ASKS THE RIGHT QUESTIONS? • Why do some drivers who run red lights claim innocence • why do innocent drivers run red lights? • What aids to navigation do drivers need to make safer choices give them a fair method to obey law? Traffic laboratories around the country are very interested in performing the necessary studies to solve this safety flaw but they can't do anything without funding. 100% of revenue generated by these cameras should be devoted toward study implementation of the required aids to navigation. The Mayor Of Chicago is hereby put on notice. He now must define his commitment to life and liberty by supporting or ignoring this plea for change. Please contact us
